Race Results.

BY DIRECT WIRE TO THE TIMES.

SAN FRANCISCO, Jan. 27.—[Exclusive Dispatch.] The New California Jockey Club has taken a novel action in punishing men for an act committed outside the race track. Through an order issued by President Williams, admission to Oakland track will be denied to any person who has used the name of Schreiber's son, E. B. White, a Chicago correspondent, who were members of a party that secured good worth of wines and food at a local resort last Saturday night and Sunday by the use of the name of Barney Schreiber.

Tompkins has been working for several months as a clerk for a bookmaker. White came out here last year from Chicago, but soon gained the reputation of a rascal because of his frequent practice of racing. He roamed the Oakland track until he was given a newspaper position, after which he

praised it.

REGARTY THE WINNER.

CHICAGO, Jan. 27.—In a twenty-round contest at the Scribner Opera House here tonight Tim Hegarty, the Australian boxer, gained the decision over Aurelio Herrera. Jack Welsh refereed the bout, and while many were of the opinion that there was not much to choose from between the two men, the decision was just. From the start, the Australian, who was the taller and more powerful boxer, had the ring to himself and nicely pulled himself out of some tight corners.

It is the idea of many that Hegarty's success in gaining the decision will not mean much, as his ring career has been "lent" as a world-beater and in consequence was thought to be in a position to put Herrera away in quick order.

The fight gave general satisfaction owing to its cleanliness and the cleverness displayed by both men. Herrera, who had gone back considerably in the estimation of the public since his defeat in this city, since his defeat at the hands of Terry McGovern, tonight made up for lost ground and was heartily cheered for his sound boxing. As was natural, the fighters fought over the water. Hegarty would much have preferred to have won in a more decisive fashion, but was apparently unable to get inside. Herrera, on the other hand, appeared to take a little backward in accepting a punch at the hands of the other, and from the appearance of the men after the fight there were but few signs of fatigue.

A challenge from Ruth Turner of Stockton to fight the winner of the contest was read at the ringside, following the presentation of the trophy. Tom Dunn and George Parris of Los Angeles. Daly won in the second round on a foul.

SIGOURNEY IS CLEVER.

MAKES A BRILLIANT RUN.
BY DIRECT WIRE TO THE TIMES.

NEW YORK, Jan. 27.—[Exclusive Dispatch.] W. H. Sigourney gave another exhibition of skill at the Knickerbocker Athletic Club tonight. He defeated M. B. Brown, one of the cleverest men in the Club, in a Diamond Club, playing 400 points at 14-inches half-line billiards, to the latter's 266 points. Brown put up a good strong game, and looked a winner, when Sigourney made another of his brilliant runs and turned defeat into victory. His brilliant run, of 140 points, was the best of the men after the fight there were but few signs of fatigue.

A challenge from Ruth Turner of Stockton to fight the winner of the contest was read at the ringside, following the presentation of the trophy. Tom Dunn and George Parris of Los Angeles.

RAILROADS.

(CONTINUED FROM FIRST PAGE.)

that the State of Minnesota is so far interested, in its individual capacity, in the subject matter of this action, as to cause it to maintain the same.

"It may be best, in this case, in addition to the statute prohibiting the consolidation, the State of Minnesota has contributed over ten million acres of land in order to secure the construction and maintenance of some of the parallel and competing lines of the parallel and competing lines of the Great Northern and the Great Northern or Northern Pacific Railway Company, as part of the consideration which the State received for the lands granted, was the implied agreement on the part of such railroad corporations and their stockholders, that these lines of railway should be maintained and operated by such corporations as parallel and competing lines.

"A part of the statute law of the State of Minnesota, relating to railroad corporations, has been for nearly thirty years that no consolidation in any way whatever shall take place between parallel and competing lines of railway within the State, unless one of the conditions and considerations demanded by the State for the right to be a railroad corporation, and to exercise the powers and privileges of such within the State is, that free and open competition be kept between the lines of railways maintained by such corporations, and the violation of these statutes, it may be said, is the violation of the contract rights or obligations of the stockholders thereto with the State, and such violation gives the State the right to maintain an action to enjoin such violation.

"The declared public policy of New Jersey and the United States is against consolidation and unification of competing lines of railway, and the removal of competition in freight and passenger rates. This policy is declared in the so-called 'anti-trust' law of the United States, which has been before this court on several occasions.

"The stock of the Great Northern and Northern Pacific Railway companies, the title to which is held in the Northern Securities Company, has been omitted because to make residents of New Jersey subject to the jurisdiction of the State of Minnesota, which has ousted the court of jurisdiction.

"It is the fundamental error in this bill, he said, 'that the word "managers" contained in the Act of 1874, applies to James J. Hill, William F. Clough and others who were directors or officers of the Great Northern Company, and that they could not individually, while acting as managers, acquire the stock of a parallel or competing company.' It may be said that the word 'managers' is not used in the bill to refer to managers of the Great Northern Company, and that the amendment implied that they reported the action which covered exactly the same subject matter. At any rate, these gentlemen and numerous others, whose names are mentioned in the bill of complaint, are not parties to this suit. Their rights cannot be adjudicated or their acts enjoined in their absence. They were omitted because to make residents of New Jersey subject to the jurisdiction of the State of Minnesota, which has ousted the court of jurisdiction.

"It will be noted that the statute of the State of Minnesota is against consolidation of the parallel and competing lines of railway companies, but it also speaks for the securities company.

THE PUBLIC SERVICE—IN THE COURTS AND OFFICES.

SUMMARY OF THE DAY.

An independent telephone company, represented by M. Adrian King, yesterday began in the franchise, offered by the City for \$100,000, and promptly posted with the City Clerk. The California Pacific Railway Company secured the Vermont-avenue street railway franchise for \$250, without opposition.

Councilman Walker yesterday brought up the freighting clause in the pending franchises for discussion, but was squelched.

Much miscellaneous business was transacted by the Council yesterday.

The Supervisors adopted speci-
fication yesterday for the cell work in
the new County Jail. They also passed
an important ordinance against rain-
ing irrigating water in public high-
ways, making the offense a misde-
meanor.

Emma de Lacey Stanton was held
over in jail yesterday on a charge
of shoplifting.

Frank Coker was held over for trial
yesterday on four charges of burglary.

In the case of Wong Sang, charged
with obstructing the street, it is al-
leged that Apalachee street was never
legally made the property of the city.

TELEPHONE FRANCHISE
SOLD TO ADRIAN KING.

“HELLO” CONCESSION BRINGS A
FAIRLY GOOD PRICE.

Unexpected Rivalry for the Privileges
of Establishing Another System Leads
to Lively Bidding—Bell Company May
Be Forced to Make Improvements.

M. Adrian King was the successful
bidder for the telephone franchise sold
in the County, changing yesterday
morning, being awarded the concession
on the sixteenth bid for \$300.

Much to the surprise of the city fathers
there was spirited competition for the
possession of the “hello” privilege, and
the offers were speedily advanced from
\$100 to the figure at which the fran-
chise was finally awarded.

Within a short deal of mystery sur-
rounds the interests that are backing
the bidders. It is stated on good authority
that capitalists living in Iowa put
up the money which Mr. King is using,
and that he had instructions to bid in
the franchise at any figure below \$100.

At any rate the amount of the
bid was immediately forwarded to
the Board of Public Works, which committee has
already held a number of conferences in
regard to the matter.

The board ought to report in regard
to this important matter, Mr. King
ought to be called in to give his version
of the facts, and the City Clerk is
informed that he has been called in
to give his version of the facts.

“The gravity with which members of
the board have met on the averages
about five hours a meeting on the aver-
age, and the parliamentary practices at
every session, discuss this suddenly-discovered point
indicates that they really believe there
is something in it,” said Mr. King.

“The public works committee has
been asked to hold baggage, fruit and
dairy products I am in favor of it. But
I do not believe that the company
would have any objection to it, as long
as we do it in the interest of the public.”

At his request Superintendent Mc-
Graw was given a leave of absence for
